Example:
 300,000 lb. GVW - 105,500 = 194,500
 194,500 ÷ 2,000 = 97.25 Tons
 97.25 Tons X \$5.00 = \$486.25/mile

Uniform Permits are NOT authority to use county roads during weight restrictions (Frost Law). Contact the Sheriff Dept. or County Road Superintendent in each county before using any County Road during the Frost Law period.
