18 county superintendent of schools. However, a hub city school district must be
19 omitted from distributions under this subdivision.
 - 20 c. Twenty percent must be distributed to the incorporated cities of the county. A hub
21 city must be omitted from distributions under this subdivision. Distributions
22 among cities under this subsection must be based upon the population of each
23 incorporated city according to the last official decennial federal census. In
24 determining the population of any city in which total employment increases by
25 more than two hundred percent seasonally due to tourism, the population of that
26 city for purposes of this subdivision must be increased by eight hundred percent.

9 and gas gross production tax revenue collections from all the counties that
10 receive allocations under this subsection.

11 (2) The state treasurer shall distribute, to the hub city funding pool, the monthly
12 amount needed from each county to provide six million six hundred

18 subsection 2 and the six million six hundred thousand dollars under
19 this paragraph. The monthly allocation to each hub city must be
20 proportional to each hub city's impact percentage score, including
21 fractional percentage points rounded to the nearest tenth of a percent,
22 relative to the combined total of all the hub cities' impact percentage
23 scores.

24 (b) The state treasurer shall calculate the impact percentage score for
25 each hub city by summing the following:

26 [1] The percentage of mining, quarrying, and oil and gas extraction
27 employment relative to the total employment of all industries in
28 the county in which the hub city is located, based on the most
29 recent annual data for all ownership types compiled by job
30 service North Dakota in the quarterly census of employment and
31 wages, multiplied by forty-five hundredths;

- 1 [2] The average of the percentage of mining, quarrying, and oil and

6 service North Dakota in the quarterly census of employment and
7 wages, multiplied by fifteen hundredths;
- 8 [3] The percentage of establishments engaged in mining, quarrying,
9 and oil and gas extraction relative to the total establishments of
10 all industries in the county in which the hub city is located, based
11 on the most recent annual data for all ownership types compiled
12 by job service North Dakota in the quarterly census of
13 employment and wages, multiplied by one-tenth;
- 14 [4] The percentage of oil production in the human service region in
15 which the hub city is located relative to the total oil production in
16 all the human service regions with hub cities, based on the most
17 recently available calendar year data compiled by the industrial
18 commission in a report on the historical barrels of oil produced by
19 county, multiplied by one-tenth;
- 20 [5] The percentage change in population from five years prior for the
21 hub city, based on the most recent actual or estimated census
22 data published by the United States census bureau, multiplied by
23 one-tenth; and
- 24 [6] The percentage change in population from five years prior for the
25 county in which the hub city is located, based on the most recent
26 actual or estimated census data published by the United States
27 census bureau, multiplied by one-tenth.

11 impact percentage score, including fractional percentage points
12 rounded to the nearest tenth of a percent, relative to the combined
13 total of all the hub cities' impact percentage scores.

14 (b) For the purpose of determining the impact percentage score for each
15 hub city school district, the state treasurer shall use the same impact
16 percentage score as the corresponding score calculated for each hub
17 city in paragraph 2.

18 (4) The state treasurer shall distribute, to the supplemental school district
19 funding pool, the amount needed from each county to provide for the total
20 allocations under this paragraph. To each county that received more than
21 five million dollars but less than thirty million dollars of total allocations under
22 subsection 2 in the most recently completed even-numbered fiscal year
23 before the start of the biennium, the state treasurer shall allocate a monthly
24 amount from the supplemental school district funding pool which will be
25 added to the distributions to school districts under paragraph 2 of

13 exceeding twenty million dollars of total allocations under subsection 2
14 in the most recently completed even-numbered fiscal year before the
15 start of the biennium, the state treasurer shall allocate a monthly
16 amount that will provide a total allocation of one million dollars per
17 fiscal year. The allocation must be distributed to school districts within
18 the county pursuant to paragraph 2 of subdivision b.

12 b- (2) Five percent must be distributed to school districts within the county on the
13 average daily attendance distribution basis for kindergarten through grade
14 twelve students residing within the county, as certified to the state treasurer
15 by the county superintendent of schools. However, a hub city school district
16 must be omitted from distributions under this subdivision.

17 e- (3) Twenty percent must be distributed to the incorporated cities of the county. A
18 hub city must be omitted from distributions under this subdivision.
19 Distributions among cities under this subsection must be based upon the
20 population of each incorporated city according to the last official decennial
21 federal census. In determining the population of any city in which total
22 employment increases by more than two hundred percent seasonally due to
23 tourism, the population of that city for purposes of this subdivision must be
24 increased by eight hundred percent.

20 ~~highest percentage of such allocations. Hub cities, which are located in a~~
21 ~~county that did not receive an allocation under subsection 2 in the most~~
22 ~~recently completed even-numbered fiscal year, must be excluded from the~~
23 ~~allocations under this subsection. If fewer than three hub cities are eligible~~
24 ~~for the allocations under this subdivision, the state treasurer shall allocate~~
25 ~~the available funds in proportion to the amounts the eligible hub cities~~

15 **57-51.1-07.8. County and township infrastructure fund - Continuing appropriation -**
16 **State treasurer - Reports.**

17 There is created in the state treasury the county and township infrastructure fund. The fund
18 consists of all moneys deposited in the fund under section 57-51.1-07.5. All moneys in the fund
19 are appropriated to the state treasurer on a continuing basis for the purpose of providing grants
20 to non-oil-producing counties and townships located in non-oil-producing counties. The grant
21 funding may be distributed only to non-oil-producing counties and townships located in

31 with the grant funding. The state treasurer shall make the reports available to the

1 public on the state treasurer's website. A county that does not provide the report in a

13 the benefit of the organized and unorganized townships within each non-oil-producing
14 county. The distribution to each non-oil-producing county must provide for an equal
15 allocation to each organized and unorganized township. The amount allocated to
16 organized townships under this section must be paid by the county treasurer to each
17 organized township. The amount allocated to unorganized townships under this
18 section must be credited by the county treasurer to a special fund for unorganized

27 estimated road and bridge investment needs of all the non-oil-producing counties. The
28 total estimated road and bridge investment needs for each county is the twenty-year
29 estimate for unpaved and paved road and bridge needs as identified by the upper
30 great plains transportation institute. If the data compiled by the upper great plains
31 transportation institute includes more than one twenty-year estimate for the total needs

2 for each county.
